

**30MM & 45MM MIFARE INLAY**

**OVERVIEW**

These Mifare compatible inlay tags are suitable for a wide range of RFID applications where a simple stick-on tag is required. They are available in 30mm or 45mm diameters, the larger size offering improved read performance and come with a self-adhesive backing on an easy release backing paper, making them easy to peel for attachment to assets or other items needing tags. .
